INTRO2. Hello, I'm conducting research on behalf of the University of California. We are working on a statewide study about people's attitudes towards smoking to be used by the California legislators and public health officials. We are not asking for money. Your name will not appear in any study results and your answers will only be used for the purposes of this research, or as required by law. You can skip any question that makes you uncomfortable. While your participation is voluntary, your cooperation is very important to the success of this study. There will be no direct benefit to you; however, results from this study may be used by California legislators, public health advocates, researchers and the general public.

This will take about 20 minutes.

USE IF ASKED:
If you have any questions about the study, you may call UCSD directly at (858) 822-5668. If you have any questions about your rights as a research participant at UCSD, you may call the Human Research Protections Program at (858) 455-5050.
